

Engineering Work Alterations

September 2025

Updated 14/9/25

NATIONAL SUMMARY

Nothing to report at the time of posting.

FREIGHTLINER

The service alterations summarised below are for those routes, which Freightliner class 90s operate on.

West Coast Main Line

WCML / Scotland / Midlands / South / NW England:

There were no other known alterations to report on at the time of publication. However, engineering work does take place on various sections of the WCML during the week and at weekends at short notice. It is advisable to check real-time data sources for specific trains on specific days just to be sure that the train you're looking for is a runner or diverted.

East Anglia / GEML

- Saturday 6th / Sunday 7th September - The GEML is shut between Ipswich and Colchester, diversions apply via Elyn using diesel traction.
- Saturday 13th / Sunday 14th September - The GEML is shut between Ipswich and Colchester, diversions apply via Elyn using diesel traction.
- Saturday 20th / Sunday 21st September - The GEML is shut between Ipswich and Colchester, diversions apply via Elyn using diesel traction.
- Saturday 27th / Sunday 28th September - The GEML is shut between Ipswich and Colchester, diversions apply via Elyn using diesel traction.

DB CARGO

WCML / Scotland / Midlands / NW England:

Alterations for DB Cargo are no longer reported for the time being.
